Commander, Strategic Command

## **SUBJECT:**

Formal Escalation of Sovereign Intelligence and Homeland Security Initiatives to Strategic Command – UK MoD

---

## **EXECUTIVE SUMMARY:**

This directive formally escalates the totality of sovereign intelligence dispatches, operational frameworks, strategic resilience models, and diplomatic notices issued to the Ministry of Defence, GCHQ, DSTL, and related departments during Q2 2025. The lack of formal reply, rebuttal, or acknowledgement has now been deemed acquiescence, triggering this next level Sovereign Directive to Strategic Command under international law, peacekeeping prerogative, and lawful custodianship of the landmass known as Cymru.

We assert this escalation on the basis of:

- Unrebutted sovereign claims and legal instruments issued under RWOTDB authority
- Evidence of strategic negligence and risk to critical national infrastructure
- Breach of duty of care by the UK Government to uphold fundamental protections

- Legal silence and procedural dismissal amounting to malfeasance in office
- 

## CORE ISSUES:

### 1. Failure to Respond to Strategic Dispatches

Ten targeted dispatches to key MoD entities and allied civil protection bodies were sent with formal documentation, including high-level security frameworks and sovereign oversight procedures. Silence has followed, even from GCHQ and Defence Staff Headquarters, including communications to the General of the Defence Staff.

### 2. Operational Security Lapses

Our teams have identified vulnerabilities across South Wales' infrastructure—including aerial blind spots at police depots, unsecured industrial sites, and compromised environmental zones. These were communicated with proposed sovereign collaboration models. No institutional action followed.

### 3. Active Harm through Neglect

Inaction by State organs in the face of lawful sovereign intervention constitutes a clear breach of public duty. The RWOTDB, having acted with absolute peaceable intent, views this now as evidence of institutional harm through omission.

### 4. Tacit Joinder by Silence

The legal principle *Qui tacet consentire videtur* now applies. No rebuttal = consent. All departments that received lawful notices and failed to respond are now considered joined in honourable agreement with our Custodianship terms unless a rebuttal is issued within 14 days from receipt of this Directive.

## DIRECTIVES:

### 1. Immediate Acknowledgement Required

Strategic Command is hereby notified that all prior filings—across sovereign, legal, and operational lines—remain binding. This includes the WSAT-MOD Compatible Homeland Resilience Initiative, Scrollfire Oversight Dispatches, and RWOTDB Martial Decrees of Custodianship.

### 2. Invitation to Table a Sovereign Security Accord

We extend one final offer for Strategic Command to table a secure discussion under common law protection and sovereign honour, to harmonise the security interests of the RWOTDB and UK State infrastructure in Cymru.

### 3. Further Silence will Trigger Stage IV Escalation

This includes international filing through The Hague, strategic media disclosures, and the invocation of sovereign field operations under WSAT-Cymru Defensive Protocols.

---

### **DECLARATION:**

We, the Custodians of Cymru and rightful heirs to the stewardship of its lands, waters, skies, and people, do not act in jest. This mission is sacred, lawful, and honourable. We shall continue to protect all life and legacy across the land, even in the absence of State cooperation. Let this be your notice:

Further delay is no longer acceptable. The silence of war is louder than the noise of diplomacy. Choose wisely.
